

FASTENER POLAND®

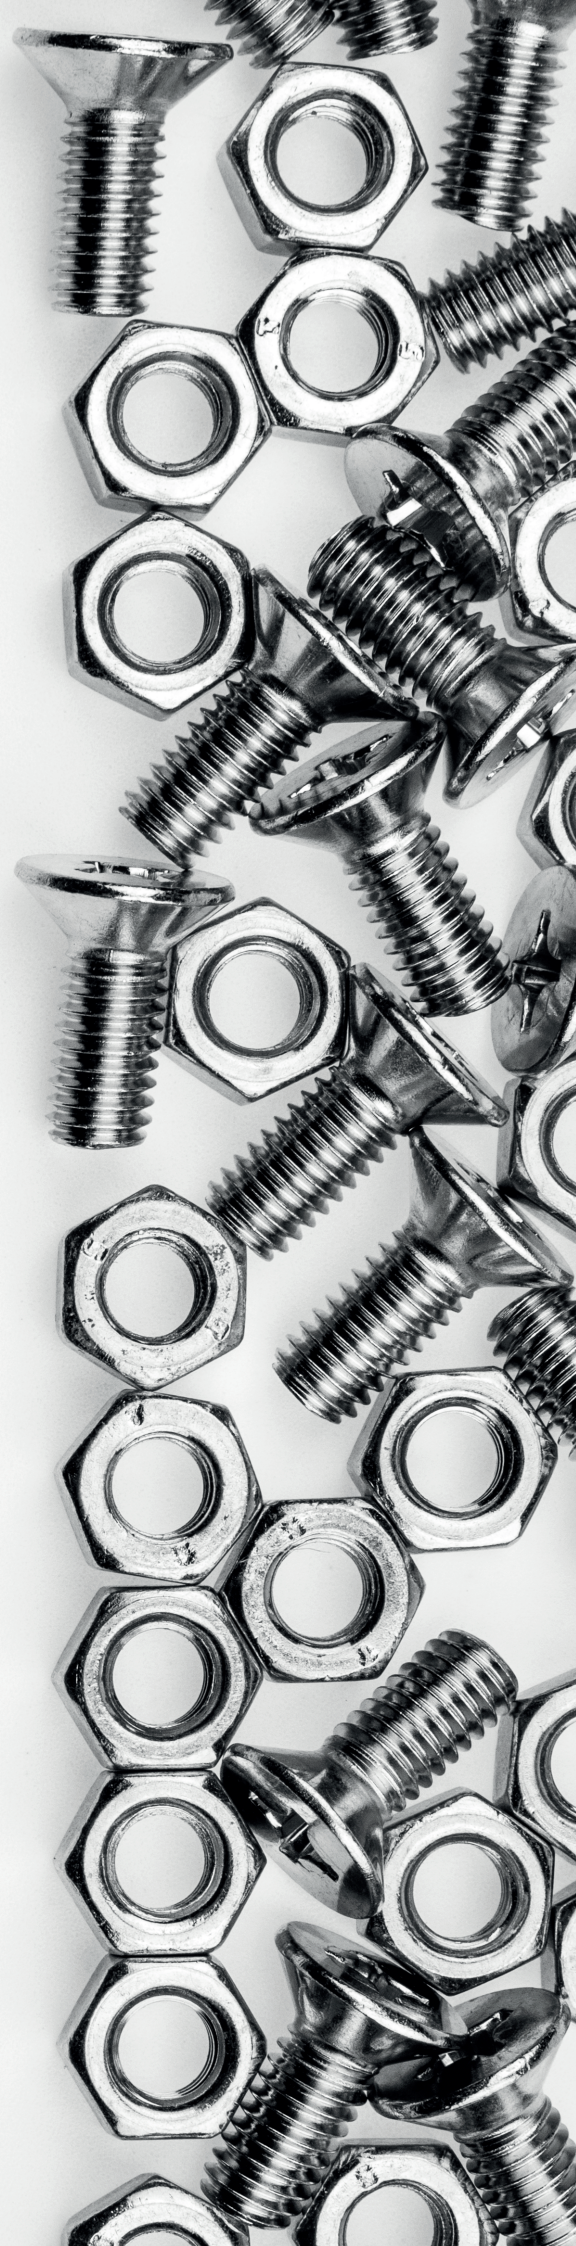

6th International
Trade Fair for Fastener
and Fixing Technology

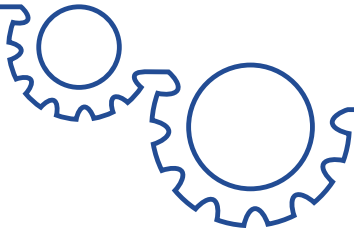

18th-19th October 2023
Krakow, Poland

TRADE FAIR GUIDE

GET FREE TICKET >

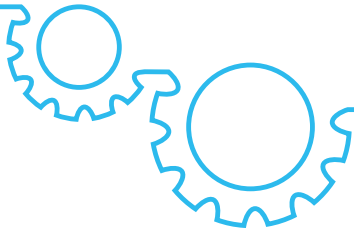

The FASTENER POLAND® Trade Fair starts in less than a month. Therefore, we present to you the latest issue of the trade fair guide, including:

- novelties presented by this year's Exhibitors,
- trade fair program,
- practical information.

A key forum for exchanging experiences, learning about new products, and building effective commercial relationships between companies from around the world. 150 exhibitors from 15 countries will present their offers. The program includes: conference, product zone for energy, electrical engineering and renewable energy, meetings with experts and technological innovations.

EXHIBITOR'S LIST >

ASTRA TRADE | BOOTH D33

Ecoline WOOD WTX screws – these are hardened steel screws with PZ2 and Tx20 recess, intended for wooden window production. They are galvanized in white zinc plating without harmful chrome 6+, and the head design allows masking assembly errors (reduced head).

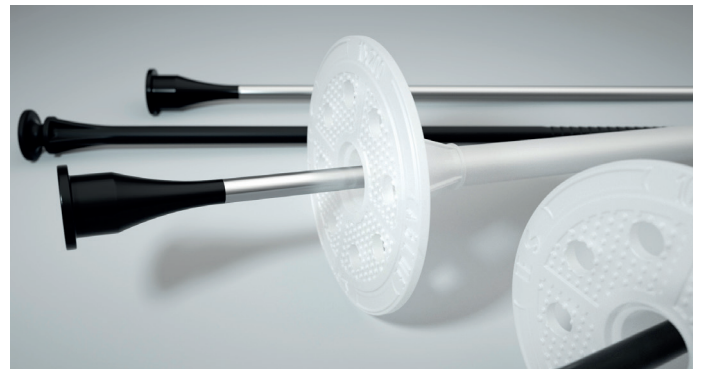

METFIX SP. Z O.O. | BOOTH D45

Fasteners for photovoltaics. Offer includes stainless elements such as: stainless double threaded hanger bolts, other hexagonal, hex flange, lock bolts and T-bolts, aluminum sliding nuts, trapezoidal sheet metal screws, square and flange nuts and others. Company offer prices straight from own import from outside the European Union without intermediaries. The products have good quality and material certificates. The above elements are delivered within 24 hours straight from warehouse in Poland. Products are insured up to EUR 5,000,000.

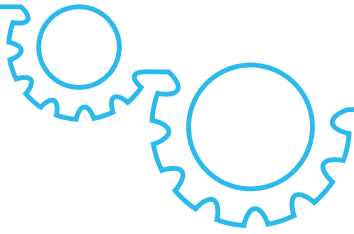

PGB-POLSKA SP. Z O.O. | BOOTH D31

The high-quality **Thermo Smart insulation plugs** are the perfect combination of an expansion plug and expansion nail in one handy product. The plastic insulating plug prevents thermal bridges and is ideal for use in hollow and solid building materials.

TECHNIKI SYSTEMÓW APLIKACYJNYCH SP. Z O.O. | BOOTH D49

The **SPR – Self-Pierce Riveting Systems** devices offered by the company for making holeless riveted connections are used in automotive, construction, aviation and electronic structures. SPR technology creates gas- and water-tight connections, ideal for environments requiring protection against weather, moisture or gases.

FASTER S.R.L. | BOOTH D34

New line producing kits with bolts, washers, nuts and other fasteners with a barcode, QR code, customer logo and universal nylon fixing.

STEAM SP. Z O.O. | BOOTH D20

New generation CDP-99M welding machine. It has a digital positioning measurement system as well as a mechanical process monitoring, which improves the work with this device. Perfectly copes with studs from M3 to M10. Thanks to the Gap-M gun, it is possible to weld studs made of various materials: copper-plated steel, stainless steel, aluminum and brass. A large four-inch display and an intuitive menu ensure the comfort of work at the highest level.

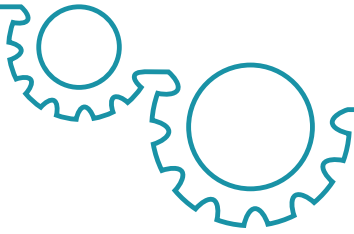

ARMA BAGLANTI SISTEMLERİ SAN VE TİC AŞ BOOTH D55

Locking Clamp Type Pre-Positioned Clamp Production Line. ARMA made a significant progress in locking type clamps, which are used on fluid management systems in the automotive sector and provide the operator opportunity to pre-position before installation. Thanks to the locking feature, which is patented by ARMA, the clamp is fixed in the desired position and the adjustment time in the assembly line is eliminated. New designed automatic production lines can meet the high demand easily.

EXHIBITORS' PRODUCTS >

TRADE FAIR PROGRAM

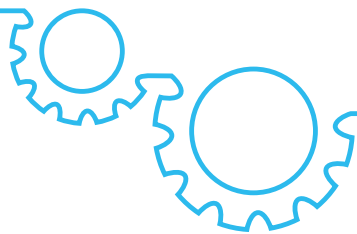

On the first day of the trade fair – October 18, 2023

CONFERENCE: “Ecology and economy in the fastener industry – challenges and opportunities”.

- 11:00 Start of conference
- 11:05 a.m.-11:30 a.m. “Green revolution – opportunities and threats for the fastener market” – Dr. Marek Łangalis, Olfor Sp. z o. o – [lecture in Polish](#)
- 11:30 a.m.-11:55 a.m. “Carbon Border Adjustment Mechanism – assumed impact of the regulations on imports from outside the EU” – Jarosław Szajkowski, ASB Poland – [lecture in Polish](#)
- 11:55 a.m.-12:20 p.m. “Circular building and construction with Lindapter” – Gert-Jan Houkes, Lindapter International
- 12:20 p.m.-12:45 p.m. “Decarbonization in the ESCO model in an automotive manufacturing plant” – Bartosz Radkowiak, Michał Szuster, ESCOlight – [lecture in Polish](#)
- 12:45 p.m.-13:10 p.m. “Overview of the most important tax reliefs for the fastener industry” – Łukasz Koc, ASB Poland – [lecture in Polish](#)
